

The Common Purpose Fraud

Common Purpose is a change agent being used by New Labour to recruit the commissars and apparatchiks needed to implement its hidden Communitarian agenda. .

In 1973 the UK entered into the Common Market and in 1975 the people of Britain were manipulated into voting in favour of staying in the Common Market in a referendum.

Prime Minister Heath, whose government entered into the accession treaty, and Prime Minister Wilson, who arranged the referendum, knew that the Common Market was simply a stage in the development of the European Union.

At some point, those behind the take-over of Britain by the EU realised that they needed people whom they could trust to manage the new bureaucracy.

Enter Common Purpose, which was established to recruit the commissars and apparatchiks needed to run this bureaucracy.

New Labour's Hidden Agenda

Since 1997, the New Labour government has been working to two agendas. Firstly, the open agenda as laid out in their manifestos and secondly, their hidden agenda.

The hidden agenda of New Labour is the creation of a Communitarian society controlled by the EU collective.

Part of the management mechanism being used to carry out the true but hidden agenda of New Labour is Common Purpose - a fraudulent 'educational charity' acting as a change agent. Whilst carrying out the hidden agenda of New Labour, Common Purpose has corruptly abused hundreds of millions of pounds of taxpayers' money. 'Common Purpose is the glue that enables fraud to be committed across government departments to reward pro European politicians.'

Common Purpose is guilty of defrauding YOU of YOUR money.

What is Common Purpose?

On the surface, Common Purpose is an educational charity that does leadership and networking development training. However, Common Purpose is not what it appears to be on the surface.

Common Purpose is a Trojan Horse network of senior managers in positions of power in the media, national and local government, the police, the judiciary, the NHS and private businesses employed to soften up Britain for take over by the European Union.

Common Purpose is a subversive and sinister organisation which seeks to destroy the national identity of Britain, to destroy democracy in Britain and introduce the EU Police State into Britain. The idea originally came from the Tavistock Institute.

The philosophy behind Common Purpose is Communitarianism which emphasises society rather than the individual and believe that group responsibilities (to family, community, the globe) should trump individual rights.

The methods used by Common Purpose are political correctness for social and mental manipulation, deceit, fraudulent agenda, corrupt abuse of public funds, obsessive control freakery, secrecy and bland, banal and meaningless statements.

Common Purpose has targeted the police. Police officers are supposed to operate 'without fear or favour' but there are plenty of favours being done by Common Purpose police for their colleagues in the Common Purpose network. Police officers are supposed to have allegiance to the Crown, not be part of any network controlled by Brussels.

Many BBC (Brussels Broadcasting Corporation), ITV and other media personnel are also Common Purpose 'graduates'.

Common Purpose is...

a Masonic-like society for careerists

The main way that Common Purpose is subverting Britain is by infiltrating their 'graduates' into managerial positions of power in national and local government, the media, the NHS, the military, the police and the judiciary. Common Purpose needs these 'graduates' to run the social control bureaucracy of the British regions of the European Union Police State in what they call the 'post-democratic' society. Those Common Purpose 'graduates' who are public servants breach ALL the Seven Principles of Public Life as set out by the Committee on Standards in Public Life.

a recruitment organisation

Common Purpose is a recruitment organisation being used to recruit the bureaucrats needed to run Britain when the country is taken over by the European Union

a means of subversion

Common Purpose is a Marxist-led, European Union 'Trojan Horse' fifth column operation and is part of the mechanism being used by Brussels to undermine and soften up British society to pave the way for the take-over of Britain by the EUSSR.

obsessed with social control

The main objective of Common Purpose is social control in a collectivist and corporatist society. The other objectives of Common Purpose are the destruction of the national identity of Britain, the destruction of democracy in Britain, the undermining of traditional beliefs and values and the slow, secretive merging of the public and private sectors into a state-controlled partnership.

corrupt, deceitful, fraudulent and treacherous

It is difficult to comprehend the enormity of the corruption, deceit, fraud and treachery that Common Purpose and Fabian-inspired 'New' Labour have engaged in. Common Purpose has been working with the British government to soften up Britain for takeover by the EU.

fraudulently masquerading as a 'charity'

Common Purpose has redefined the meaning of 'charity'. Although Common Purpose calls itself an 'educational charity', it is not the poor and disadvantaged who benefit. Instead, the main beneficiaries are the rich and powerful.

a criminal abuser of public funds

Most people have never heard of Common Purpose which is strange because Common Purpose has corruptly abused millions of pounds of taxpayers' money.

Help stop Common Purpose by discussing them with your friends and ask MPs, council officers, the police et cetera about their involvement with Common Purpose.
